Creating tomorrow's leaders in the new age of mobility.

### The new computer science: mobile computing

Throughout your educational career, you'll be presented with many opportunities to develop software, design next-generation mobile applications, implement pervasive information systems and analyze and plan wireless networks. This program fosters an entrepreneurial spirit that embraces the mobile movement and is poised to prepare tomorrow's leaders in the new age of mobility.

### Prepare for your career

Industry collaboration through internships and undergraduate research provides you with a variety of exciting job opportunities in this rapidly growing field. This program offers eight academic semesters with three co-op semesters for up to 12 months of industry experience upon graduation. You'll be well prepared to start your career or continue your studies in graduate programs.

### Combine theory with practice

Balancing theory and practice, this program offers an exceptional education in mobile computing, app development, software engineering and wireless technologies. With a degree in mobile computing you'll receive preparation to become a well-rounded, job-ready graduate. Pursue a Capstone Project or a Thesis for maximum flexibility and future career options.

# Career Opportunities

Graduates may find employment in the following areas: software engineering, advanced mobile application development, web development, quality assurance, system analysis and Networking.

## HERE ARE SOME JOBS YOU MIGHT FIND:

Mobile Application Developer  
Web Application Developer  
Computer System Analyst  
Software Engineering Developer

AR/VR Developer  
Software Developer  
Database Analyst  
Wireless Network Design Specialist

# Courses

## SOME OF THE COURSES YOU CAN EXPECT TO TAKE IN YOUR PROGRAM

Edge to Core: Network Foundations  
Mathematics for Computing  
Operating Systems Fundamentals

Interactive Application Development  
Mobile Computing  
Programming Principles

## Admission Requirements

### Program Eligibility

Ontario Secondary School Diploma or equivalent, including these required courses:

- English, Grade 12 (ENG4U)
- Mathematics, Grade 12 Advanced Functions (MHF4U or equivalent) or Grade 12 Calculus and Vectors (MCV4U or equivalent)

plus

- Four other Grade 12 subjects at the U or M level\*
- Minimum 65% overall average

\*Recommended: Grade 12 Computer Science (ICS4U) or Grade 12 Computer Engineering Technology (U or M)

or

- Two semesters of postsecondary education including required courses with a minimum 65% overall average

### Applicant Selection

Eligible applicants are selected on the basis of previous academic achievement (the average of their six highest senior-level credits, including required courses).

Applicants who do not meet the admission requirements for this program may be advised individually regarding other related programs.

### English Language Proficiency

All applicants whose first language is not English must meet Sheridan's English Proficiency Requirements.

Refer to the website for full admission requirements.

## How to apply:

5 easy steps

- 1 Find your program
- 2 Check the admission requirements
- 3 Apply online
- 4 Submit your documentation
- 5 Accept your offer
