**Ensure effective flow and production
of goods and services to customers.**

What's the difference between logistics and supply chain management?

If logistics are different parts of the body, the supply chain is the brain. In the fast-growing field of supply chain management, you'll oversee and coordinate purchase of materials, production, storage and delivery of products. Master how to manage business endeavours, balance supply and demand and gain skills key to any organization's success.

Take a creative approach to resolving business issues

The slightest changes to a company's materials, inventory, transportation or marketing strategy can have huge ripple effects on the rest of the business. Learn how different departments depend on each other and use creative thinking to come up with solutions that benefit the entire company.

Enjoy collaborative and hands-on learning

Today's work world has changed. Top employability skills now include critical thinking, collaboration, leadership, communication and entrepreneurship. Our small class sizes and applied learning approach allow you to develop these skills in an interactive environment. You can then refine your new skills through a mandatory internship and optional co-op.

Career opportunities

As a graduate of Sheridan's Honours BBA Supply Chain Management program, you'll be ready for your business career!

You might find work in one of these areas:

- Global Sourcing and Procurement Management
- Transportation and Distribution Management
- Production Management

Admission requirements

Program eligibility

Ontario Secondary School Diploma or equivalent, including these required courses:

- English, Grade 12 (ENG4U or equivalent) with a minimum 65%

PLUS

- Mathematics, Grade 12(U) (MCV4U, MDM4U, MHF4U or equivalent university-level Math) with a minimum grade of 60%.
 - Students who do not possess a university-level Math with a minimum 60% or who have achieved a grade below 60% may complete Sheridan's Mathematical Functions for Business (MATH18263) course, which is offered through Continuing and Professional Studies. A minimum grade of 60% in MATH18263 is required for admission.

- Four other Grade 12 subjects (U or M) with a minimum grade of 60%.

- Minimum 65% overall average.

OR

- Two semesters of postsecondary education, including required courses, with a minimum of 65% overall average.

Applicant selection

Eligible applicants are selected on the basis of previous academic achievement (the average of their six highest senior-level credits, including required courses).

Applicants who do not meet the admission requirements for this program may be advised individually regarding other related programs.

English language proficiency

All applicants whose first language is not English must meet Sheridan's English Proficiency Requirements.

Refer to the website for full admission requirements.

How to apply:

5 easy steps

- 1 Find your program
- 2 Check the admission requirements
