Learn to craft and design using multiple materials and processes.

Broaden your horizons in craft and design

Beginning in your first year of study, you'll take courses in each of the five streams of our Craft and Design degree: Ceramics, Furniture, Glass, Industrial Design and Textiles. You'll understand how to combine a variety of materials and processes effectively, helping you develop your own unique artistic voice.

Build your own educational path

Do you want to identify the area of craft and design that you love the most? Or are you eager to develop skills in different disciplines? Either way, our professors will help you build an educational path suited to your personal interests and professional goals.

Be part of a creative community

Come be inspired by a community of like-minded people! AA-Wing at Trafalgar Campus breeds creativity, featuring five state-of-the-art studios located steps from each other. After exploring widely in the first three semesters, multidisciplinary students identify two studios to focus on.

Career opportunities
