Launch your career in 3D animation.

Intense and comprehensive training

Build on your existing skills and talents by learning the technical and creative process of 3D animation! Our instructors will guide you through an intense curriculum, teaching you all of the stages required to create compelling moving images. Enjoy creative and technical flexibility in your final projects, allowing you to explore and specialize.

Learn from 3D animation experts

Sheridan was the first animation school to teach computer animation, and we're still industry leaders today. Our instructors have worked on hundreds of television and film projects for major international studios. They're also mentors who are committed to supporting your success. You'll learn proven real-world solutions to production challenges while staying current with emerging tools and techniques.

Earn your master's in 3D animation and study abroad

Sheridan has an arrangement with the Dun Laoghaire Institute of Art and Design (IADT) in Ireland. Graduates of Sheridan's Computer Animation post-grad certificate program from 2009 or later can apply to IADT to earn their master's degree in 15 weeks.

Career opportunities

The excellent reputation of Sheridan's Computer Animation program is built on the success of our alumni. Graduates of the Computer Animation program have been hired by studios across the world in roles such as:

- Layout
- Modelling
- Shading/Texturing
- Rigging
- Animation
- Lighting
- Compositing
- Technical Direction

Courses

Some of the courses you can expect to take in your program

- Animation Design
- Animation Methodology
- Computer Animation Capstone

Admission requirements

Program eligibility

- A postsecondary diploma or degree in art and/or design.

OR

- Demonstrated competence through a minimum of two years of relevant work experience.

Credentials earned at less than the equivalent of an Ontario College Diploma will not be considered as having met the academic entrance requirements. After completing our Computer Animation program, students may wish to further their studies in one of our advanced programs of specialization: Visual Effects or Digital Creature Animation.

Applicants who are over-qualified may be offered alternative post-graduate programs such as Visual Effects or Digital Creature Animation.

Portfolio

Applicants are required to submit a portfolio. The detailed portfolio requirements including due date and submission instructions will be posted in your Sheridan Applicant Portal. Please note that there is a portfolio assessment fee.

Sample portfolio instructions:

- Portfolio: Submit a portfolio of five to maximum 20 images of your own work.
- Breakdown: Write a breakdown that clearly explains the development process and work done by you on each image/video submitted in your portfolio.

Applicant selection

Candidates to the program are selected on the basis of academic achievement and the evaluation of their portfolio.

Applicants who do not meet the admission requirements for this program may be advised individually regarding other related programs.

English language proficiency

All applicants whose first language is not English must meet Sheridan's English proficiency requirements.

Refer to the website for full admission requirements.
