Computer Systems Technician – Cyber Security

Ontario College Diploma | 2 years

Davis Campus (Brampton) / Hazel McCallion Campus (Mississauga)

Scan here

The fastest way to prepare for entry-level employment in cyber security.

Fast-track your way to a cyber security career

Start working in cyber security in as little as 16 months! Build your skillset through hands-on experiences that prepare you for entry-level employment without having to complete high-level math courses. As the first public cyber security diploma in Canada, this program can also be your springboard towards future cyber security education or industry certifications.

Operate, Maintain, Protect, Defend

Sheridan's Computer Systems Technician – Cyber Security diploma develops two of the four specific skillsets within the Canadian Cyber Security Skills Framework: Operate & Maintain, and Protect & Defend. You'll learn fundamentals of operating systems, Python programming, cloud security, data communications, web/application security, tools used for cyber defence and penetration testing, and more.

Applied learning that fits your schedule

Multiple intakes, course-based registration and a mix of in-person, hybrid and online delivery allows you to learn at your own pace and build a schedule that fits your life. Active industry professionals will guide you through a blend of lectures, case studies and group discussions. You'll also work with the latest technology in a cyber range that simulates a security operation centre (SOC).

Career opportunities

The technical knowledge, problem-solving abilities and communication skills you develop in Sheridan's Computer Systems Technician – Cyber Security diploma will prepare you for a variety of entry-level positions in the cyber security industry.

You may find jobs such as:

- Cyber Security Technician
- Cyber Security Operations Analyst
- Incident Responder
- Identity Management and Authentication Support Specialist
- Internet Security Analyst
- Information Technology (IT) Security Analyst
- Vulnerability Assessment Analyst
- Encryption Key Management Support Specialist
