Game Level Design

Ontario College Graduate Certificate | 1 year

Apply your creative skills for a game level designer career.

A realistic work environment

Developed in response to industry need, this three-semester program simulates a realistic work environment in which designers, coders and artists integrate their skills. You'll learn to communicate game level design concepts and gain practical skills to implement and evaluate this knowledge in a simulated work situation. Note: This program is held consecutively – September to August.

A well-rounded skill set

The Sheridan game level design courses focus on offering applied, real-world skills development. Assignments and class work focus on case studies. You'll learn both 2D and 3D game design, while gaining industry-specific skills in game design and development, story and scripting, cinematography and sound, multi-player systems, game documentation and play testing.

The future of the game industry

Ontario's digital game industry is poised for growth, and so is the demand for game level designers. With the Game Level Design graduate certificate program from Sheridan, you'll be ready to step right into an exciting game design career.

Career Opportunities

Graduates of the Sheridan Game Level Design program will attract strong interest from employers in the digital game industry. Our integrated approach with game programming and emphasis on applied problem-solving are unique in the field, offering the type of preparation employers seek.
