Mechanical Technician – CNC & Precision Machining

CO-OP

Ontario College Diploma | 2 years
Davis Campus (Brampton)

Get the skills you need for an entry-level tool making or general machinist apprenticeship.

Career-ready training

In this four-semester program, you'll receive both classroom and lab/workshop instruction at our state-of-the-art tool making facility. After the third semester, you'll have the opportunity for on-the-job training through a co-op placement, where you'll develop in-depth tool making skills.

Graduate with a diploma and apprenticeship exemption

When you graduate from this program, you'll receive an Ontario College Mechanical Technician diploma. You may also get credit for levels 1 and 2 of your apprenticeship in-school training requirements as part of this program. This would give you a great advantage as you work towards completing your tool making or general machinist apprenticeship.

21st-century tool making

During the classroom and lab/workshop components of the program, you'll work with 21st-century tool making technology and equipment while becoming skilled in:

- Precision Machining
- Computer Numerical Control (CNC) programming
- Computer-Aided Manufacturing (CAM)
- Computer-Aided Drafting and Design (CADD)
