

Mobile Applications Development

Ontario College Graduate Certificate | 2 years

Scan here

Get ready to launch your career in mobile applications.

Become a mobile application developer

In this 2-year program, you'll learn the latest trends and technologies in mobile computing, application development, software design, cloud-based data management and application security. Job prospects are strong — especially in the Toronto area. The industry is growing rapidly, and companies are having trouble finding developers to fill roles. As a graduate of this program, you'll be ready to step in.

Get the tools you need to succeed in the technology sector

You'll learn to:

- Architect, develop and test mobile applications that are secure and scalable, with a focus on user experience.
- Create design artifacts, apply enterprise architecture frameworks and develop prototypes of innovative solutions.
- Implement robust data protection measures and meet industry compliance standards.
- Collaborate with clients and teams to optimize processes and achieve goals.

Gain professional experience through work-integrated learning

In your fourth semester you'll participate in a mandatory work-integrated learning (WIL) experience (co-op work term or workplace simulation*), where you'll apply your classroom learning in an industry setting. Through WIL, you'll gain a deeper understanding of industry demands and expectations, expand your skillset and grow your professional network. This invaluable work experience and exposure to professionals in the field can launch you into your career.

Career opportunities

As a graduate of Sheridan's Mobile Applications Development graduate certificate program, you'll be ready to pursue a variety of career opportunities in sectors such as information technology and digital media.

You may find roles such as:

- Mobile application developer
- Software engineer
- Game or software developer
- UX/UI designer
- Quality assurance analyst

Courses

Some of the courses you can expect to take in your program

- Android Application Development
- Mobile iOS Application Development
- Modern UI/UX Design for Mobile Platforms
- Immersive AR/VR App Development
- Mobile Application Security
- Cloud-Based Data Management and Integration

Admission requirements

This program is currently only available to international students.

Program eligibility

Postsecondary diploma, advanced diploma, or degree in information technology, software development, or equivalent fields.

or

Demonstrated competence through educational experience and/or related work experience.*

Applicant selection

*Applicants who apply with an unrelated postsecondary credential or work experience will need to submit extra information that outlines how you are prepared for this program. The details of this submission and how to submit can be found in your applicant portal.

Applicants who do not meet the admission requirements for this program will be assessed and advised individually and may be considered for other, related programs.

International applicants

- Official postsecondary transcripts, indicating courses completed to date, and credential must be submitted at the time of application. In case the transcripts/certificates are not in English, note that these documents must be accompanied by a notarized, official translation into English. Translated copies must also be accompanied by a copy of the original transcript.
- International applicants need to follow the international application process.

English language proficiency

All applicants whose first language is not English must meet Sheridan's English proficiency requirements.

Refer to the website for full admission requirements.

How to apply:

5 easy steps

- 1 Find your program
- 2 Check the admission requirements
- 3 Apply online
- 4 Submit your documentation
- 5 Accept your offer
