Project Management – Information Technology

Scan here

Ontario College Graduate Certificate | 2 years | Co-op
Trafalgar Road Campus (Oakville)

Master Agile, AI and data skills to
lead IT projects with confidence.

Take the lead in IT project management

Gain the skills to successfully manage IT projects from start to finish. Master Agile and Scrum methodologies and traditional project management approaches to keep projects on track. Work with AI, cloud platforms and data analytics to improve efficiency and deliver results.

Shape your learning to fit your goals

Choose electives that match your career path. You'll be able to future-proof your skills in courses like AI and Emerging Technologies in Project Management, Cloud Project Management and Strategic Leadership in Enterprise AI Implementation. Specialize in high-demand areas and set yourself apart in the industry.

Get hands-on experience that matters

Work on real-world projects, simulations and case studies using AI-driven platforms and industry tools like JIRA and Microsoft Project. In your final semester, put your skills to work in a mandatory work-integrated learning experience (co-op work term or workplace simulation), where you'll gain practical experience, build industry connections and graduate ready to lead.

Career opportunities

Sheridan's Project Management – Information Technology program prepares you to lead IT projects in diverse industries. With skills in Agile, AI and data analytics, you'll be ready for in-demand roles in project management, business analytics and digital transformation.

You might find roles such as:

- Agile Project Manager
- AI Project Lead
- Business Analyst
- Cloud Project Manager
- Digital Transformation Manager
- IT Governance Specialist
- IT Project Manager
- Scrum Master

Courses

Some of the courses you can expect to take in your program

- Project Budgeting and Scope Management
- AI-Enhanced Project Management Leadership
- AI and Emerging Technologies in Project Management
- Quality Assurance and Advanced Risk Management
- Advanced Data Analytics for Project Optimization
- Project Management Fundamentals (PMI Standards & Methodologies)

Admission requirements

This program is currently only available to international students.

Program eligibility

Postsecondary diploma, advanced diploma or degree in information technology, computer science or equivalent fields.

Applicant selection

Applicants who do not meet the admission requirements for this program will be assessed and advised individually and may be considered for other, related programs.

International applicants

- Official postsecondary transcripts, indicating courses completed to date, and credential must be submitted at the time of application. In case the transcripts/certificates are not in English, note that these documents must be accompanied by a notarized, official translation into English. Translated copies must also be accompanied by a copy of the original transcript.
- International applicants need to follow the international application process.

English language proficiency

All applicants whose first language is not English must meet Sheridan's English proficiency requirements.

Refer to the website for full admission requirements.

How to apply:

5 easy steps

- 1 Find your program
