

Supply Chain Management – Logistics Automation

Scan here

Ontario College Graduate Certificate | 2 years | Co-op
Hazel McCallion Campus (Mississauga)

Effectively manage the logistical needs of any organization.

Use emerging technologies to help solve business issues

The world of supply chain is changing and the need for technical, analytical, sustainability-conscious, adaptable leaders continues to grow. As a graduate of this program, you'll be ready to step in. Learn about sustainability and environmental care practices and how to use artificial intelligence (AI), blockchain and cutting-edge software to automate parts of the supply chain process.

Innovative learning and hands-on experience

From sustainably sourcing materials to responsible distribution, supply chain involves a large network of people and resources working together to bring a finished good to the consumer. Through interactive simulations, virtual reality (VR), case studies and a mandatory work-integrated learning experience (co-op work term or workplace simulation) in your fourth semester, you'll gain the skills to support important functions in the supply chain with confidence.

Build the skills you need to adapt to an evolving industry

- Apply supply chain design, risk management and data analytics principles to maximize supply chain and logistical functions.
- Use industry-related technologies to improve and support supply chain functions, processes and communications.
- Learn how sustainability and environmental care practices are applied to different areas of the supply chain.

Career opportunities

Supply chains worldwide are navigating complex issues requiring workers with strong data, technology and problem-solving skills and sustainability expertise to rise to the challenge. Meet the demands of today's evolving supply chain industry.

After graduation from Sheridan, you may find roles such as:

- Logistics coordinator
- Supply chain analyst
- Inventory manager
- Transportation planner
- Ethical sourcing manager
- Supply chain manager
- Warehouse operations manager
- Procurement specialist
