Land Acknowledgement Statement

Sheridan acknowledges that all of its campuses reside on land that for thousands of years before us was the traditional Territory of the Mississaugas of the Credit First Nation, Anishinaabe Nation, Huron-Wendat and the Haudenosaunee Confederacy.

Integrated Planning at Sheridan

Integrated planning is the means by which Sheridan is advancing its ambitious strategic plan, Sheridan 2024: Galvanizing Education for a Complex World. The integrated planning process provides a sustainable approach to institution-wide planning that supports evidence-informed decision making, organizational performance measurement and college-wide budgeting to achieve resource optimization in support of Sheridan’s vision and strategic objectives. The Integrated Planning and Analysis (IPA) team provides integrated analysis, real time data and research to inform College stakeholders. A core component of integrated planning is the development and approval of Yearly Objectives and Divisional Business Plans, a process which is intentionally aligned to our budget allocation and employee performance development processes.

In Winter 2022, Sheridan’s Faculties and administrative areas were actively engaged in developing their 2022-23 Divisional Business Plans. The process provided staff and leaders with a shared opportunity to reflect on their current work and propose initiatives that will advance their respective priorities. The proposed Divisional Business Plans were brought forward to Sheridan’s executive leadership committee, where facilitated dialogue and structured priority setting exercises led to the articulation of Year Four (2022-23) Objectives for the organization. These Year Four Objectives were used to contextualize and inform strategic investment decisions and allocations for 2022-23. Sheridan’s planning framework and process promotes nimbleness and ensures the College can respond deftly and effectively to changing circumstances, including those related to the COVID-19 pandemic.

Through the Strategic Priority Setting process, the College’s executive leadership committee refines, prioritizes and identifies objectives.

Business Units develop plans with supporting initiatives. Integrated Planning synthesizes and analyzes the plans to lead the Strategic Priority Setting process.

Integrated Planning leads the scoping of strategies/priority areas into initiatives with deliverables, milestones and interdependencies. Scoping is integrated with Finance, IT and Facilities.

Development and implementation of a Performance Measurement criteria and tools (cascading from strategy to projects). Reporting is done on a semesterly basis to ensure projects are on track.

Institutional Response to COVID-19

Sheridan's Strategic Plan – and its recognition of the importance of higher education in today's era of unprecedented change and disruptive innovation – has framed the organization's pandemic response and recovery plan. As conditions and directives from a variety of regulators continue to evolve, Sheridan's efforts are further guided by Sheridan's Guiding Principles for Recovery Planning:

- The physical health and holistic well-being of our entire learning community is paramount.
- In all instances, recovery planning will respect the pillars of our Academic Plan: character, quality and accountability.
- Sheridan will navigate the pandemic response *together*, as a learning community, in ways that demonstrate kindness, generosity and compassion.
- Safeguarding the long-term economic sustainability of Sheridan is an imperative.
- Our long-term lens will remain rivetted to the four priorities and five enablers crystalized in our Strategic Plan.

Our pandemic response continues to be stewarded by leaders and subject matter experts from across the institution. Reporting to our executive leadership committee, Sheridan has ensured alignment of planning across the Academic Division, Institutional Research and the Emergency Operations Committee. Working in tandem, these teams are responsible for identifying supporting actions to fuel recovery planning and the advancement of objectives.
