

**ACCA**

Think Ahead

Sheridan

**OPEN DOORS  
TO A WORLD OF  
OPPORTUNITIES**

If you're looking for an exciting, rewarding career that could take you all over the world, studying the ACCA Qualification could be a great place to start.

When you combine academic studies with the world-leading ACCA Qualification, you gain a blend of skills and experience that makes you instantly attractive to employers.

Study the ACCA qualification at Sheridan College Institute of Technology and Advanced Learning, Canada.

## When you study the ACCA Qualification you can:

### Go anywhere, do anything

Whatever your passion is, ACCA's flexible qualification will help you get there. And because it's recognised all over the world, you can work internationally.

### Stand out to the best employers

The ACCA Qualification gives you the technical, professional and ethical skills and experience employers everywhere are looking for.

### Accelerate your career

Studying the ACCA Qualification along side your college or university program means you'll be able to start your career sooner.

### Be part of something big

When you join ACCA, you become part of a global network of students and members who'll be there to support you throughout your career.

## Business Administration – Accounting at Sheridan College

# Advanced preparation for your career in accounting.

### Learn how accounting supports business

Businesses rely on accountants to monitor their performance, compliance and financial health. Your first year will involve common curriculum shared by all business administration students, providing you with an understanding of how companies work. Topics of study include communications, finance, human resources and marketing — all areas of business you'll impact as an accountant.

### Specialize your skills

Study advanced accounting principles that aren't covered in our two-year Business Accounting program! In your final year, you can master skills essential for employment in the field's more demanding positions. Your final two semesters include more specialized accounting study, including audit and taxation. Students will also have the flexibility to choose several accounting electives based upon their interests.

### Optional accounting co-op placement

Enjoy the opportunity to earn while you learn! All advanced diploma students have the option of gaining more than 1,000 hours of work experience through a co-op work term. Co-op is a competitive program and you'll need to meet certain academic requirements to participate. Connections you build during your work term may lead to employment opportunities after you graduate.

### Earn credits towards your degree and ACCA Qualification

Our Degree Completion program allows you to apply your diploma credits towards the Honours Bachelor of Business Administration – Accounting degree. Credits in the diploma program can also be applied towards your Association of Chartered Certified Accountants (ACCA) qualification.

### Program:

Business Administration – Accounting (Ontario College Advanced Diploma – 3 years)

**Upon completion of the 3-year diploma program, students will receive the following ACCA Qualification credits:**

- Business and Technology (BT)
- Management Accounting (MA)
- Financial Accounting (FA)
- Corporate and Business Law (LW)
